

RESISTANCE SPOT WELDER **FAN TT 4.0**

The Most Advanced Welder

- **Digital Inverter Spot Welding**
Reproducible & Reliable Weld Results
Uniform Quality
- **Overheating is Impossible**
Precise water cooling for long duty cycles
- **Consistent Weld Power**
Secured High-Weld Power Guaranteed in Continual Operation
- **Applications for Multi-Phase Steels:**
Dual, Trip, Boron, BDk

TECHNICAL SPECIFICATIONS

- Electricity: 3 Phase, 208-230, 460-480V
- Voltage Tolerance: +/-10%
- Max. Welding Current: 14,000amps
- Pressure: 450 / 700 daN
- Weight of Tong: 12.5 kg
- Protection Class: IP 21
- Touch Screen & Adaptive Control, USB Interface
- Included Arms: 85 x 160mm, 635 x 225mm, Wheel Well Arm
- Multiple Arm Options Available
- Meets and Exceeds Automotive Manufacturer Requirements for Spot Welding.
- 3 Year Warranty
